

*Want to learn more about cancer?  
Need continuing education (CE)? Looking for patient resources?*

Ten interactive, online cancer education modules with helpful resources and activities are available free of charge. Learn ways to prevent cancer, decrease cancer risks, and if diagnosed with cancer ways to live well along the cancer journey. Each module was created with input from Alaska Community Health Aides/Practitioners (CHA/Ps) and content experts. Each module is approved for 2 hours of CHA/P CE. Everyone is invited to take the modules!

To begin learning, go to <http://anthc.remote-learner.net/>. Once at the login area, you will have to register one-time with the CHAP Distance Learning Network and then sign-in to do each module. You can take the modules in any order at your own pace. If you leave the module before you finish, it will remember where you left off when you log back in.
