Alaska Community Health Aide Program
Guidelines for Prioritizing List for Basic Training

Selection priority for Basic Training slots will be based on:

1. Length of time waiting for Session I or since FTR's were completed from previous session.
2. Student is the sole CHA provider. (No other health aides or regular/recurring other provider types)
3. Multiple CHA/provider vacancies in the clinic.
4. A student who declines to accept session invitation (at any training center) will be removed from priority status.
